

ALETHEIA

Decision Assessment 001

Assessment of a Commercial Education Programme

Purpose

This document is an independent evidence assessment based on information made available to Aletheia at the time of writing. It is intended to assist decision-making and does not constitute legal, financial or investment advice.

Decision Under Consideration

Whether a prospective purchaser has sufficient evidence to justify committing significant funds to the programme reviewed.

Evidence Reviewed

Publicly available marketing material, published website content, promotional communications and other publicly accessible information reviewed during the assessment.

Established Facts

The programme is actively marketed, has an established public presence and presents customer testimonials and educational content.

Observations

The available material places considerable emphasis on promotional messaging and testimonials. Independent outcome data was not identified within the reviewed material.

Assumptions Identified

- Testimonials are representative of typical customer outcomes.
- Customers receive comparable value.
- Marketing claims accurately reflect typical experience.

Missing Evidence

Independent customer outcome studies, verified success rates, refund statistics and other objective measures of performance were not available for review.

Decision Risks

Financial commitment, opportunity cost, uncertainty regarding return on investment and reliance on unverified assumptions.

Questions for a Prospective Purchaser

1. What independently verified customer outcomes are available?
2. What evidence demonstrates typical rather than exceptional results?
3. What support is provided after purchase?
4. What objective measures exist for programme effectiveness?

Decision Position

Seek additional evidence before proceeding.

The available evidence reviewed by Aletheia does not, on its own, remove sufficient uncertainty to support an unconditional recommendation.

Aletheia Principle

Evidence first. Conclusions second.

Πες μου την αλήθεια (*Pes mou tin alíthia*) — “Tell me the truth.”
